

educating Africa's orphans and vulnerable children

2009 Expenditures for The Empower Campaign

Over 75% of your donation will directly reach the communities we serve in Africa.

Fundraising = the amount we spend on the crafts we purchase, fair trade, from the Women's Cooperatives in Uganda (We sell the crafts in the U.S. to help support the children we serve, which provides a desperately needed income for the families that support the orphans and vulnerable children) and on other fundraising materials and fees for Empower events.

OVC (orphan and vulnerable child) Support = The amount we were able to fund to the children and schools directly in 2008. It only costs \$50 to place one child in elementary school for an entire year.

Our other costs are bank wire fees, mailing and postage, travel and event costs, which are necessary to run Empower effectively.
